John Miguel R. Jusayan

BS Computer Science

PROFILE

A dedicated and results-driven professional, equipped with a proven history of delivering solutions and consistently producing high-quality work. I am eager to contribute my knowledge and skills to a dynamic team within a challenging work environment. Currently seeking an opportunity in the field of computer science to develop my expertise further and make meaningful contributions to your organization.

EXPERIENCE

Full Stack Web developer (FERN) Intern

Humble Ripple

Feb 2024 - May 31 2024

Developed and maintained the website server for MyFairee, including designing and programming the website. Managed and created the database, as well as developed and maintained necessary APIs to ensure seamless functionality and integration.

Task Head-Manager

Dynasty Organization

2021 - 2022

I am responsible for managing tasks assigned to team members, ensuring they are distributed effectively and completed on time. Additionally, I oversee the activities of streamers, ensuring their broadcasts align with our goals and maintain high standards of content and engagement within our streaming community.

Community Manager

Dynasty Organization2021 - 2022

In my role, I effectively manage the page, oversee member activities, and ensure the quality and relevance of posts. This includes moderating content, fostering community engagement, and maintaining an organized and positive online environment. My responsibilities ensure smooth operations and a cohesive, active community.

Media Editor (Free Lance)

• 2020 - 2021

As a versatile designer, I specialize in editing stream overlays, logos, and icons. I create visually appealing and professional designs, enhancing the overall aesthetics and branding. My work ensures a cohesive and engaging visual identity for clients and their audiences.

Work Immersion at AdU Education Department

2019

·SHS work immersion subject.
