OBJECTIVE

Junior Full Stack Developer with 1+ years of experience building and maintaining web applications and APIs. Skilled in both frontend and backend development, including REST/SOAP services, database management, and responsive UI design. Proven ability to deliver scalable solutions, optimize performance, and collaborate with cross-functional teams.

EXPERIENCE

Philippine National Bank (PNB), Pasay City — Backend / API Developer

March 2025 - March 2026

- Developed and maintained middleware APIs using RESTful and SOAP services to support secure system integration.
- Optimized API performance and improved reliability through testing, debugging, and monitoring.
- Implemented data validation, error handling, and security best practices.
- Collaborated with frontend developers and internal teams to ensure seamless data flow across applications.
- Contributed to UI/UX improvements for internal tools.

Rizoma Technology, Berlin Germany — Web Developer

October 2024 - January 2025

- Developed responsive websites with user-friendly interfaces across desktop and mobile platforms.
- Built dynamic features, forms, and database integrations to support business requirements.
- Collaborated with clients to gather requirements and deliver customized web solutions.
- Performed testing, debugging, and maintenance to ensure optimal performance.

Dynasty Organization, Rosario Cavite — *Manager (Part-Time)*

Aug 2021 - January 2022

Managed team task allocation to ensure timely and efficient delivery of objectives. Oversaw streamer activities to maintain high-quality, goal-aligned content and community engagement. Administered online pages and communities, moderating content, driving member participation, and maintaining a positive, well-organized digital environment.

TECHNICAL SKILLS

Programming Languages

- **Frontend:** HTML, CSS, JavaScript
- **Backend:** Node.js, Express.js, REST APIs, SOAP
- **Languages:** Python, C#, Java, SQL
- **Database:** PostgreSQL, MySQL
- **Tools:** Git, Supabase, Retool, SheerPAS
- **Other:** API Integration, Debugging, Performance Optimization, Responsive Design

AWARDS

Certificates

- **Foundation of Operationalizing MITRE ATT&CK v13** — Aug 29, 2023
- **Introduction to Cryptology for Beginners** — Nov 3, 2023
- **IBM Design Thinking Practitioner Badge** — Feb 29, 2024
- **IBM Design Thinking Team Essentials Badge** — Mar 4, 2024
- **CertiProf Scrum Foundation Certificate** — Mar 5, 2024
- **Vulnerability Assessment Certificate** — Mar 15, 2024 (HTB Academy)

EDUCATION

Adamson University, 900 San Marcelino St, Ermita, Manila, 1000 Metro Manila — BS Computer Science

2019 – 2024

Adamson University, 900 San Marcelino St, Ermita, Manila, 1000 Metro Manila — Senior HighSchool

2017 – 2019

CaviteSchool Of St.Mark, Km 17 Aguinaldo Hwy, Bacoor — Junior HighSchool

2013 - 2017

PROJECTS

MyFairee Full stack FERN Website (Internship)

- Developed and maintained both frontend and backend components of a service-based platform.
- Designed and optimized database structures for efficient data handling.
- Built APIs to integrate frontend, backend, and database systems.
- Improved system performance and user experience through continuous testing and updates.

Unica Circuits 3D Calculator Website

- Built a web-based tool that processes STL file uploads and generates automated pricing.
- Implemented pricing logic based on model parameters to ensure accurate cost estimation.
- Reduced manual quotation time and improved operational efficiency.
- Designed a user-friendly interface for quick and easy pricing evaluation.

SPORTS MATCH PREDICTION ANALYSIS APPLYING MACHINE LEARNING MODEL WITH RULE-BASED APPROACH — *Research Study*

- Developed a predictive system using machine learning and rule-based logic.
- Analyzed historical data from PBA and PVL to generate match predictions.

EVALUATION OF ETHANOL PROPERTY IN GRAPE SEAWEED (CAULERPA RACEMOSA) IN POTENTIAL BIOETHANOL PRODUCTION — *Research Study*

This study was conducted to identify the total ethanolic percentage of Grape Seaweed. In that way, evaluation of the potential of grape seaweed as an alternative fuel is suggested. Through the tests, comparison between the ethanolic property of Caulerpa racemosa and the ethanol that is commercially consumed was done.

Seminars Attended

- **Retool turns Insights into Actions Using WorkFlow and Agents.** — Zoom Meeting
- **Work Ethics and Behavior: Going with the Growing Industry** — Adamson University, SV AVR
- **InSTEMsify** — Adamson University, SV AVR
- **CS Projects Exhibit and Research Presentation** — Adamson University, SV Building
